

NAVEEN RAGIPINDI

NetSuite Functional Consultant & Administrator

Hyderabad, 500085 | +91 7981641388 | naveen.netsuite01@gmail.com

PROFESSIONAL SUMMARY

- Over 3+ years of experience in NetSuite Administration and Functional Consulting across end-to-end ERP implementations, configuration, and post-go-live support.
- Profound experience implementing workflow solutions using NetSuite Workflow Manager (SuiteFlow), Suitelets, User Event scripts, Client scripts, Scheduled scripts, and RESTlet.
- Experienced NetSuite Functional Consultant and Administrator with a proven track record in managing users, customizing and configuring NetSuite, and providing technical support.
- Hands-on experience with NetSuite Advanced Revenue Management (ARM/NSAR) including Revenue Arrangements, Revenue Elements, Revenue Plans, and compliance with ASC 606 / IFRS 15 standards.
- Worked on custom email workflows sent to supervisors and managers without consuming NetSuite licenses.
- Configure NetSuite using forms, fields, custom records, custom lists, and saved searches.
- Expertise in creating custom workflows, searches, KPIs, reports, and dashboards.
- Basic knowledge of SuiteScript, JavaScript, SQL, and NetSuite modules including SCM, CRM, HRMS, and Manufacturing.
- Worked on Advanced PDF/HTML Templates to design print templates for Invoices, Vendor Bills, and Vendor Bill Payments.
- Hands-on experience with Avalara Tax integration for automated tax calculation and compliance within NetSuite.
- Experience with NetSuite integrations including Salesforce CRM, Shopify eCommerce, HubSpot, Marketo, and Concur Expense Management.
- Skilled in reconciliation activities including AP/AR reconciliation, Bank Reconciliation, Vendor & Customer Account Reconciliation, and Inter-Company Reconciliation.
- Strong background in collaborating with cross-functional teams to deliver tailored solutions and optimize system performance.

WORK EXPERIENCE

Executive ERP | Bambino Agro Industries Limited | June 2025 – Present

- Day-to-day configuration and maintenance of NetSuite ERP to maximize workflow efficiency and meet business objectives.
- Setting up new users, assigning roles, and managing permissions.
- Developing, testing, and deploying customizations, custom objects, and new workflow functionality.
- Designed dashboards for user groups that include key performance indicators (KPIs) and performance data.
- Implemented and supported NetSuite ERP modules: Finance, Procurement, Inventory, Fixed Assets, Sales & Distribution.
- Configured Chart of Accounts, Tax Rules, Approval Workflows, Custom Forms, Saved Searches, and Reports as per business needs.
- Performed data migration activities via CSV imports for Customers, Vendors, Items, and Opening Balances.
- Designed and optimized Saved Searches & SuiteAnalytics reports for customer-wise, vendor-wise, and transaction-based reporting.
- Assisted finance teams in Month-End & Year-End Closing and reconciliations by generating GL, Trial Balance, and Intercompany reports.
- Ensured compliance with statutory requirements (GST, TDS, Tax Codes) by configuring tax rules and validating reports.
- Supported NetSuite–Concur integration for automated expense data sync between employee expense reports and NetSuite Finance module.
- Assisted in NetSuite–Salesforce CRM integration to synchronize customer, quote, and sales order data across platforms.
- Configured NetSuite Advanced Revenue Management (NSAR/ARM) — set up Revenue Recognition Rules, Revenue Arrangements, and Revenue Elements to automate multi-element revenue recognition in compliance with ASC 606.

- Generated and reviewed NSAR Revenue Recognition reports and Revenue Plans to support Month-End close and finance sign-off.

NetSuite Functional Consultant | ITrend Solutions | June 2024 – December 2024

- Developed and implemented NetSuite customizations to meet enhancement and maintenance requirements.
- Worked on customization of NetSuite fields, page layouts, record types, reports, and dashboards.
- Maintained users, roles, security, profiles, and workflow rules.
- Managed mass imports and exports of data.
- Designed and built custom objects.
- Led design review sessions with IT and business leads to obtain sign-off and deployment support.
- Participated in NetSuite–Shopify integration project to sync product catalog, inventory levels, and order data between Shopify storefront and NetSuite ERP.
- Assisted in NetSuite–HubSpot integration for lead-to-customer lifecycle management — syncing contacts, deals, and marketing activity into NetSuite CRM records.
- Assisted in configuring NetSuite Advanced Revenue Management (NSAR) — defined Revenue Recognition Rules and Revenue Plans aligned with customer contract terms.
- Supported testing and validation of NSAR Revenue Elements and Revenue Arrangements to ensure accurate revenue deferral and recognition scheduling.

NetSuite Functional Consultant | Amagi Media Labs Pvt. Ltd | February 2023 – June 2024

- Found functional solutions to address system issues and created detailed ERP implementation reports.
- Provided training to business users and offered ongoing post-go-live support.
- Evaluated, understood, and validated specific requirements for NetSuite implementation, configuration, and customization.
- Created test plans with key metrics for testing both native and custom NetSuite processes.
- Carried out gap analysis between processes before and after NetSuite implementation.
- Worked on NetSuite ERP functions: Custom Records, Role and Permissions Management, Workflows, Forms, Segments, Fields, Saved Searches.
- Day-to-day administration tasks: user creations, role permissions, monitoring scheduled maintenance email logs, data fixes in production.
- Experience with Custom Entity Fields, Custom Item Fields, Custom Transaction Body Fields, and Custom Transaction Column Fields.
- Supported NetSuite–Marketo integration to automate marketing campaign data and lead scoring sync into NetSuite for closed-loop reporting.
- Performed Vendor Reconciliation and Customer Account Reconciliation to ensure accuracy of outstanding balances and transaction records within NetSuite.
- Assisted finance teams with Balance Sheet Reconciliation, Bank Reconciliation, and AP/AR Reconciliation during Month-End and Year-End close cycles.
- Conducted Inter-Company Reconciliation to verify and match transactions across subsidiaries in NetSuite OneWorld environment.
- Identified and resolved reconciliation discrepancies by investigating transaction mismatches, duplicate entries, and missing records in NetSuite.
- Generated and reviewed GL Reconciliation, Trial Balance, and Ageing Reports (AR/AP) to support finance sign-off during close periods.
- Creating new users and resetting passwords and 2FA setups.
- Gained hands-on exposure to NetSuite Advanced Revenue Management (NSAR/ARM) — supported configuration of Revenue Arrangements and Revenue Plans for subscription and project-based contracts.
- Assisted in validating Revenue Recognition schedules and ensuring accurate posting of deferred revenue entries as part of Month-End close activities.
